

# JAMES RICHARDSON/ FURNITURE

## Joy Ottoman

### Sitland

Joy is a collection of seat-pouf covered with fine textured upholstery with a cheeky and playful look that focuses on different coloured fabric combinations. Joy furnishes and embellishes versatile and multiform settings, with the slightly upward- tapered outline of the seat which emphasises the change in colour of the fabrics. a design selection with simple yet far from obvious silhouettes since its very simplicity makes it a unique, lively and concurrently extremely functional item of furniture. The seat-pouf is available in three versions: with fixed base, with castors and rocking. the latter, in addition to emphasising the playful side of Joy, was designed in keeping with ergonomic criteria: the balance and stability of the seat in fact encourage proper and relaxing posture. Joy is available in a broad range of fabrics and colours to offer sophisticated, brightly coloured combinations depending on the surrounding setting.
